NEW ORLEANS, Oct. 8 .- A comm. of representative colored men have issue an address to the people of Louisiana, foreshadowing their political action. They say they are Republicans, both by instinct and conviction. They remark:

While we have so much to encourage us in the attitude of the national administration, and are sustaining the State government, we can't be insensible to the fact that the Republican party in this State, since reconstruction has been manipulate and controlled by men as much bleached in complexion and polities as the most rampant white leaguer in Lcuisiana. The power and patronage of the State government and some of the Federal offices in the city are being dispensed so as to exclude our race and intelligence from political prominence. So humiliating has become our experience under the administrations which have been naugurated by our suffrages, that we occasionaly doubt the Republicanism of some of our leaders.

There is a species of myst ry, so far as we are concerned, about the plans of the campaign and the policy of the State Administration, which denies to every colored man in this Commonwealth, not excepting the Lieutenant Governor, the Secretary of State, Superintendent of Public Education and the State Treasurer, all participation and knowledge of the confidential ngs of the party and Government. They complain that they have not been

permitted to shape the policy of the Government set up by their suffrages, and are not responsible for it. In conclusion, the signers of the address uthorite an Executive Committee to confer with any body of citizens in furtherance of united action for the improvement of the laws and public affairs.
